School Year September-June

An action packed week discovering the culture of Wales North Wales

Programmes
AWAY

activities & project work

excursions

living with a family

Wales in Action is a project designed for school groups for **Primary, Secondary and Bachillerato** to discover the beauty and culture of North Wales.

Students **spend a week in a Welsh town** and **live with one of our carefully selected host families**. During the day each group is accompanied by native English speaking guides and complete an action packed schedule of workshops, tours and excursions where they learn about Welsh culture and the area where they're staying.

For history, culture and beautiful scenery - **North Wales is hard to beat**. It is a centre for adventure sports in the UK, is safe and welcoming for visitors and is only a **short trip away from Chester, Liverpool and Manchester**.

Wales is an old country, which is rich in culture and heritage.

There are more Castles per kilometer than any other country in the world, some which we will discover and study.

Students are **constantly involved with their language learning**. Living with a host family provides a unique opportunity to learn about their culture, develop and improve conversational skills, all in a warm & welcoming family environment.

We provide our **Family Project**, which is a dossier of interesting topics and interviews to complete with the family to **reinforce skills and encourage conversation**.

We send each school a **Pre-trip Project** to complete with students in class before leaving, and help **present the trip to parents**.

home to home^{hth}
language immersion experiences

collaborating with more
than 400 schools
